

CLAIM STATUS

1-20. (cancelled)

21. (Presently amended) An *in vitro* reaction system comprising a fucosyltransferase and a catalytic amount of a nucleoside-diphospho fucose forming enzyme.

22. (Presently amended) The *in vitro* reaction system of claim 21 wherein the nucleoside-diphospho fucose forming enzyme is guanosine diphospho-fucose pyrophosphorylase.

23. (Presently amended) The *in vitro* reaction system of claim 21 which further comprises a kinase.

24. (Original) The *in vitro* reaction system of claim 23 further comprising a pyruvate kinase.

25. (Presently amended) The *in vitro* reaction system of claim ~~22~~ 23 wherein the kinase is a fucose kinase.

26. (Presently amended) The *in vitro* reaction system of claim ~~22~~ 56 further comprising a NADPH regeneration system.

27. Cancelled.

28. (Presently amended) The *in vitro* reaction system of claim 27 wherein guanosine diphosphate mannose is generated ~~in-situ~~ *in situ* from guanosine triphosphate and mannose-1-phosphate.

29. (Presently amended) The in vitro reaction system of claim 28 which further comprises pyruvate kinase and guanosine diphospho-mannose pyrophosphorylase.

30-51. (cancelled)

52. (New) The *in vitro* reaction system of claim 21 further including a catalytic amount of GDP, GTP or both GDP and GTP.

53. (New) The *in vitro* reaction system of claim 21 wherein said nucleoside-diphospho fucose forming enzyme forms GDP-fucose from GDP-mannose.

54. (New) An *in vitro* reaction system comprising a fucosyltransferase, a catalytic amount of guanosine diphospho-fucose pyrophosphorylase and a catalytic amount of GDP, GTP or both GDP and GTP.

55. (New) The *in vitro* reaction system of claim 54 which further comprises one or both of a pyruvate kinase and a fucose kinase.

56. (New) An *in vitro* reaction system comprising a fucosyltransferase, a catalytic amount of guanosine diphospho-mannose pyrophosphorylase and a catalytic amount of GDP, GTP or both GDP and GTP.

57. (New) The *in vitro* reaction system of claim 56 which further comprises pyruvate kinase.
